

Smart Energy GB in Communities News Update

Smart Energy GB in Communities launches large grants fund today

Applications are open today for large grants of between £10,000 and £25,000 for regional organisations that will help reach priority groups.

The Smart Energy GB in Communities Fund is seeking applications from not-for-profit organisations who can help engage people and communities across Britain with information about how to get and use smart meters. Organisations are required to be working with those who may face barriers to getting a smart meter, for more information on the 2016 priority groups please see our [website](#).

Small grants of up to £10,000 are also available for community organisations who will work directly with one or more of the priority groups on projects to be completed in 2016.
