# FUEL INEQUALITY FRAMEWORK

Introduced by Dominic Watters, 24.01.2023

- **Fuel Inequality (Macro)**  
call it what it is, a non-equal distribution of resources that isn't experienced in isolation
- **Fuel Insecurity (meso)**  
the impact a lack of access to fuel has on physical and emotional wellbeing
- **Fuel Poverty (micro)**  
Only an economic issue, the limited amount of gas or electric you have to cook, wash, and warm your home
