Additional information

Who attends the NEA conference?

Last year conference was attended by over 450 participants representing the fuel utilities, local and central government, consumer and caring agencies, energy service providers, manufacturers and installers of energy efficiency products and materials, and regional decision makers.

Conference social programme

A programme of activities complements the conference and exhibition including an evening buffet and drinks reception at the exhibition opening on Monday evening and networking dinner on Tuesday evening.

The benefits of exhibiting

- The exhibition provides an excellent opportunity to promote your organisation's products and services and/or objectives to a diverse range of participants throughout the conference.

- All exhibitors are encouraged to attend the sessions and participate fully in the conference.

- Exhibitors are also welcome to participate in the social programme, which provides excellent networking opportunities.

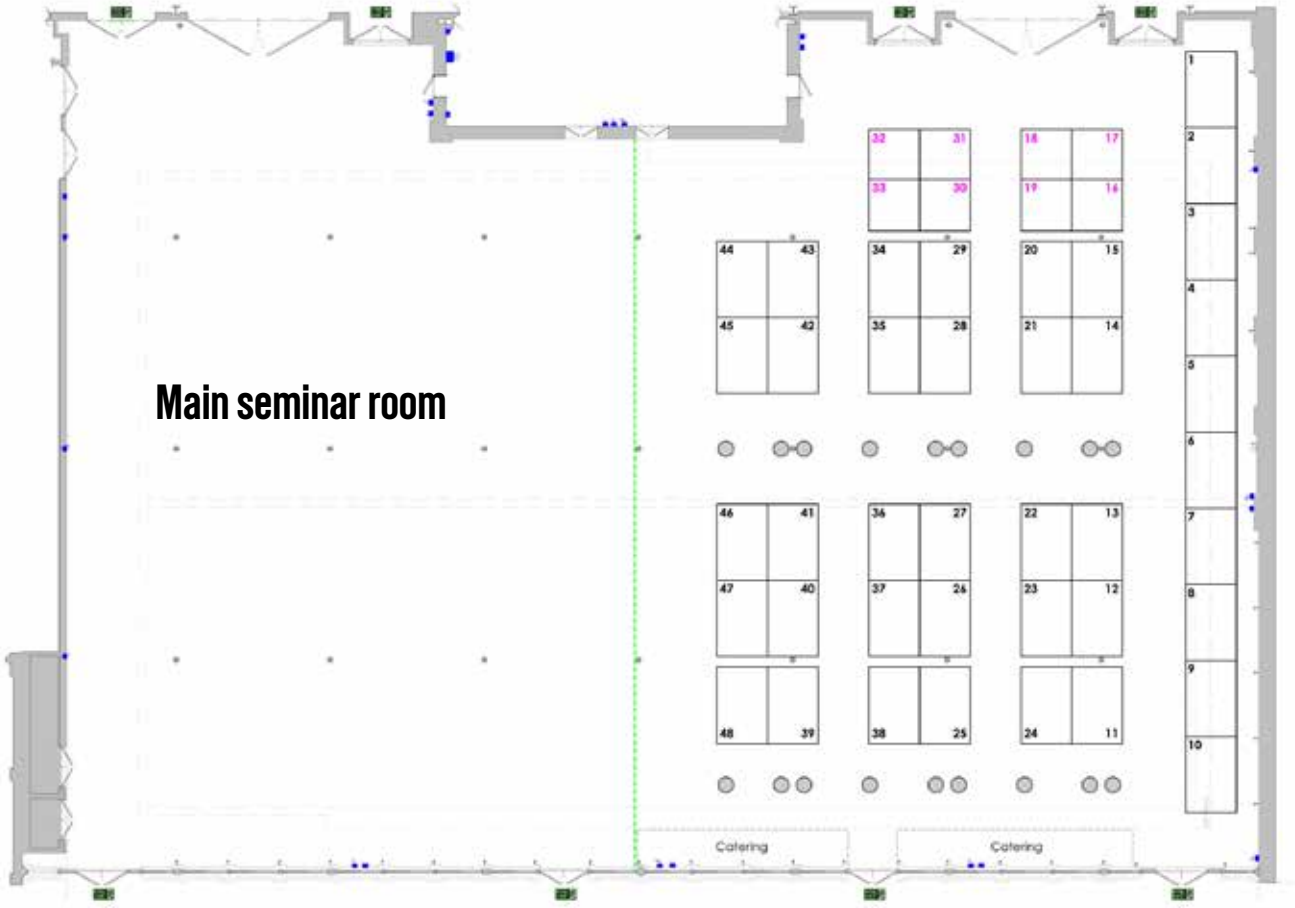

- The exhibition is a focal point of the conference. The exhibition hall will host all the catering facilities, allowing delegates easy viewing access. Longer viewing slots and extended lunch breaks allow delegates plenty of viewing opportunities.

PLEASE NOTE

Stand numbers used on the floor plan are for guidance only; please do not use these on any promotional material as your actual stand number may change.

Depending on final take-up of stands, NEA reserves the right to alter the layout of the exhibition, including the location of the catering points. We will inform you if we need to relocate your stand; we will endeavour to make the move minimal and keep your stand in the general location that you have requested.
